Education

Indian Institute of Technology Madras India
Bachelor of Science in Data Science and Applications *2026 – 2030*

Indian Institute of Engineering Science and Technology, Shibpur Howrah, India
Bachelor of Technology in Aerospace Engineering *2026 – 2030*

Raghunathganj High School Murshidabad, West Bengal
Higher Secondary Education (PCMB) – A+ Overall *2025*

Projects

2D Physics Engine *Python, Pygame* GitHub

- Developing a 2D physics simulation engine implementing gravitational motion through semi-implicit Euler integration.
- Implemented collision detection, impulse-based collision response, restitution, friction and positional correction.
- Refining collision behaviour and numerical stability; rotational dynamics and spring mechanics remain future additions.

Personal Portfolio Website *HTML5, CSS3, JavaScript* GitHub

- Designed and developed a responsive personal website featuring a portfolio, CV, technical write-ups and blog.
- Integrated the GitHub REST API to dynamically retrieve and display public repository information.
- Deployed through GitHub Pages.

Academic Achievements

- Higher Secondary Education (PCMB) – A+ Overall
- JEE Main 2026: 99.01 percentile in Physics.

Leadership & Activities

- **Co-Producer & Management Lead, School Rock Band:** Co-led production and management during the school's Platinum Jubilee celebrations.
- **School Wall Magazine:** Co-designed and managed the magazine, contributing to its creative direction and vintage-inspired aesthetics.
- **Physics Practical Student Guide:** Assisted Group 1 peers in conducting Class XII laboratory experiments.

Skills & Interests

Programming: Python, C++
Web Technologies: HTML5, CSS3, JavaScript
Libraries: Pygame, Pyautogui, Math
Tools: Git, GitHub, VS Code
Academic Interests: Computational Physics, Algorithms, AI ML, Web Development
Interests: Electric Guitar, Music, Badminton
